

Welcome to SHIPS!

- To navigate through this demo:
 - Press view and then full screen
 - You can click on any selection in the main menu to view a particular topic
 - Use the right and left arrow keys to scroll through the screens
 - The  prompt will return you to the main menu (or  press the right arrow key to continue)
 - Press the escape key at any time to exit

SHIPS™

Export Management
for MFG/PRO

Version 1.2

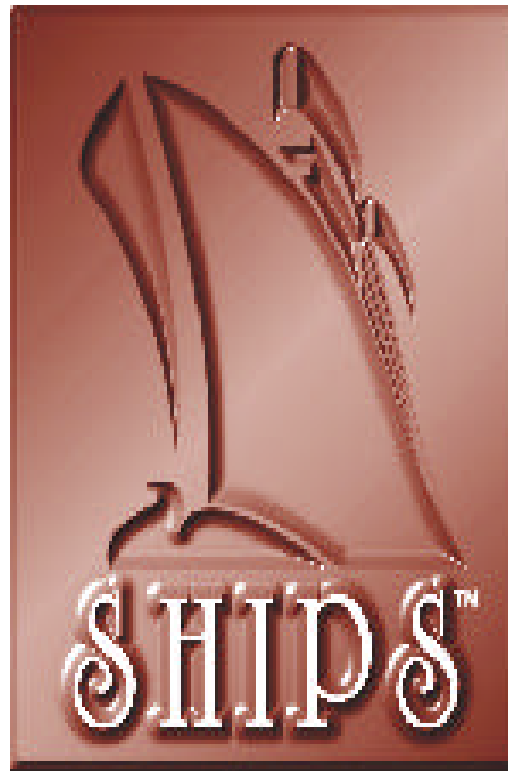

Sepesi, Inc.

4/30/99

SHIPS by Sepesi, Inc.

The first
Export
Management
system
to integrate
seamlessly
with
MFG/PRO

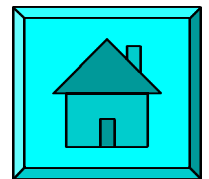

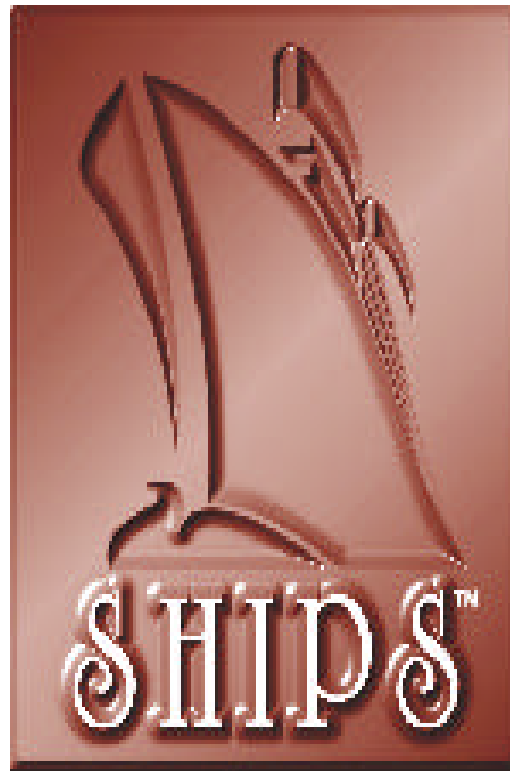

Generates high
quality export
documents,
enforces compliance
with export
regulations and fully
manages the export
process

- SHIPS Export Compliance
- Internet Update of Government Files
- Compatibility with MFG/PRO and Progress
- Contact Sepesi, Inc. for more information

Select any item or press the right arrow key for the next screen

Why Export Management?

Use the left/right arrow keys to scroll or escape key to exit

Why Export Management?

- Preparing Export documentation is a slow and complex process
- Outsourcing this task to forwarders or brokers costs between \$50-\$150 per export
- You as exporter are responsible and liable for all information even if outsourced
- You are required to keep records of all exports for 5 years

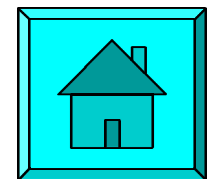

ERP System Integration

- Export management is the missing link in ERP global supply chain functionality
- Clearing customs at U.S. and foreign borders depends on having the required information in the right format
- Automating the conversion of sales orders into exports, printing documents, checking and recording all activity is a natural extension of the ERP shipping process

Current Export Solutions

- Outsource document creation and compliance checking to a third party for a fee
 - Loss of Control, Expensive, Record Retention
- Manually create documents using a word processor. Manual compliance check
 - Slow, Error prone, Research difficult
- Purchase a standalone export system and write an interface to the ERP system
 - Redundant data, long implementation, upgrades

The SHIPS Solution

Use the left/right arrow keys to scroll or escape key to exit

Export Management

As a business increases its number of export shipments, the process becomes much more difficult to manage and control. SHIPS provides the frame work to standardize export procedures and provides a central point to collect and track all export related activities.

Documentation

Filling out the proper forms for any given shipment is time-consuming and prone to error. Missing or improperly filled out paperwork can cause products to be held up by customs. SHIPS automates this process and saves the expense of purchasing pre-printed forms.

Compliance

All exports are regulated by the U.S. Government. Ensuring that shipments comply with current regulations can become complex. Violations can result in severe financial penalties. SHIPS allows users to stay in compliance by giving controls to manage product manufacturing and subsequent shipments to controlled destinations.

Audit trails track key activities in the life of all exports.

Sales Order Compliance

In Sales Order compliance, the sold-to, ship-to and bill-to addresses are checked against denied party lists for possible matches. Also, an attempt is made to assign an export license or license exception to each Sales Order line item for the destination country on the ship-to.

SHIPS Process flow

Create Export from Sales Order

- Extract Sales Order and line item information
- Obtain export related data for each item from Export Item Maintenance (Schedule B, licenses, etc)
- Obtain transportation data for export from Export Routing Maintenance (carrier, mode, etc)

Create Export from Sales Orders

```

SHIPS Export Compliance

Use the left/right arrow keys to scroll or escape key to exit

Export Compliance

- Classify your items with Customs regulatory data
 - Harmonized Tariff Code (schedule B number)
 - Export commodity control number (ECCN)
 - Country of Origin
 - NAFTA and other origin criteria
 - Valid licenses and exceptions by destination

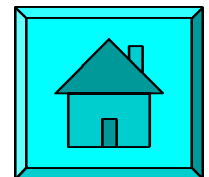

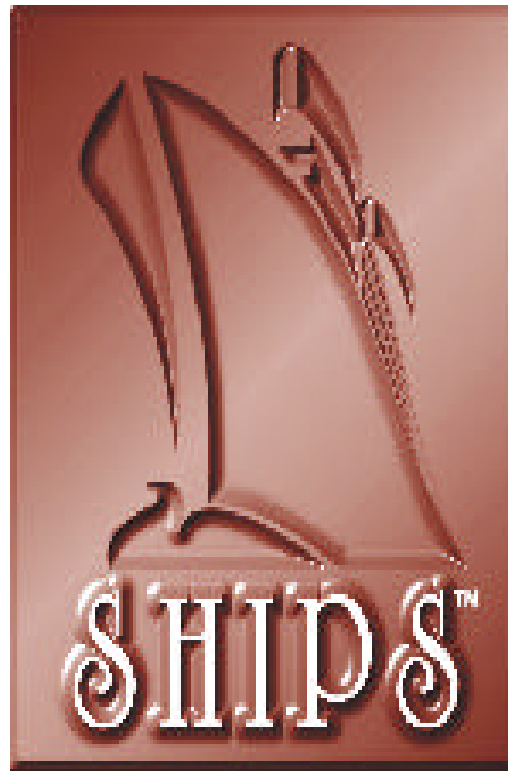

Export Compliance

- License Review
 - License or exception automatically assigned if available
 - Check if license is valid for destination and product
 - Prevent export if a valid license or exception is not found
 - Prevent export if license requires a letter of assurance
 - Prevent exports to embargoed countries

Export Compliance

- Denied Party Review
 - Check all addresses on export against denied party lists
 - Ship-to, Bill-to, Sold-to, Intermediary, Forwarder
 - All denied party lists searched in a merged database
 - Denied person list, Specially designated nationals,
 - Debarred parties, Entity list
 - Prevent export if any address is deemed suspicious
 - Held exports may be cleared for export after review
 - Search uses “fuzzy” logic

Compatibility with MFG/PRO and PROGRESS

Use the left/right arrow keys to scroll or escape key to exit

SHIPS

SHIPS (Sepesi Handling of International Processes Systems) is the first Export Management System which seamlessly interfaces with MFG/PRO. Written in PROGRESS, SHIPS provides a significant benefit to exporters running their business on MFG/PRO.

Installation

SHIPS can be quickly and confidently installed and configured without concern for integration issues associated with choosing a standalone package.

Additionally, SHIPS retains the look and feel of the MFG/PRO product, reducing training time and providing consistency.

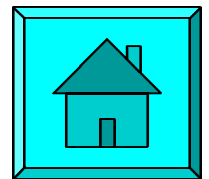

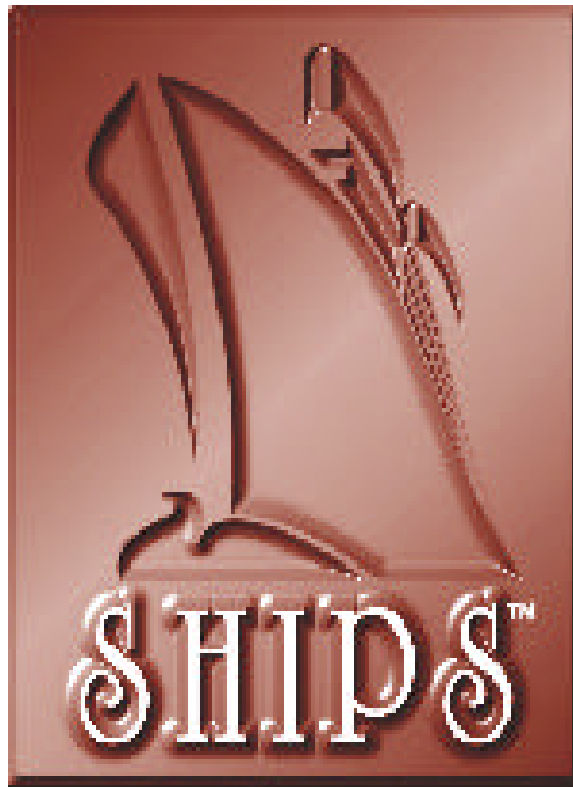

Integration with MFG/PRO

- Uses MFG/PRO files to avoid redundancy
 - Addresses, Items, Sales Orders, Invoices
- Exports pull data from orders / invoices
- Exports can be created standalone as well
- Retains MFG/PRO look and feel
- Does not update any MFG/PRO data file
- No modification to MFG/PRO source code

Version Compatibility

- PROGRESS - version 7 and later
- MFG/PRO - version 6 and later

Sepesi, Inc.

Use the left/right arrow keys to scroll or escape key to exit

Introducing Sepesi, Inc.

Sepesi, Inc. is a consulting firm that specializes in developing new PROGRESS based applications. We provide full implementation services, training and technical support for all of our products.

Introducing Sepesi, Inc.

In addition to product development, we offer a broad base of knowledge in manufacturing systems. This includes practical experience in customizing, installing, performance tuning and upgrading to new releases of MFG/PRO.

Introducing Sepesi, Inc.

In 1996, Sepesi, Inc. became a
PROGRESS Application Partner and
in 1998 became a QAD Product
Partner.

Sepesi, Inc.

PROGRESS is a registered trademark of Progress Software Corporation.
MFG/PRO is a registered trademark of QAD Inc.
SHIPS is a registered trademark of Sepesi, Inc.
